- Strong mechanical aptitude and ability to use hand and power tools
- Must be able to pass background and drug testing for access to secure customer sites
- Have reliable transportation to and from work

Travel

SRES job sites are generally within 2 hours of our location, such that we are on site and return within the same day. However, we also accept jobs further away that will require overnight stays. These trips may last up to four nights. These projects are not the norm and we give as much advance notice for travel as possible.

Compensation

Compensation for this position is based on attitude, relevant experience, and workmanship. We will train the right person. Benefits include health insurance, sick leave, vacation and retirement 401(k).
